

Find Your Wings

A New Public Art Installation Project
Coming Spring 2021
to Middlebury Vermont

Lacewing Productions and Better Middlebury Partnership are bringing together local artists, local businesses, and community members like you (yes, you!) for a collaborative project to celebrate the role that each and every community member plays in creating a thriving, inclusive, diverse Middlebury.

The project theme is WINGS. We see wings as tools to transcend economic devastation, political divisiveness, environmental crisis, and the legacy of systemic racism.

This four-phase project includes:

- An open call to artists for installation submissions
- Pairing participating local businesses with selected artists
- A collaborative community creation event
- Virtual and in-person, district-wide activities for residents of all ages and abilities.

**We believe in the power
of community.**

Join us as we work towards building a better
brighter future for Middlebury.
